

MVS31 XP

TABLETOP VACUUM - SEALING BAR 310 MM - PROCESS TRACKING AND LABELLER

DESCRIPTION

With the new series of **chamber vacuum packaging machines MVS XP** the vacuum created in the packing process can be traced: it is an innovative and revolutionary possibility for the internal vacuum, typical of the continuous thrust to the innovation that characterizes all the packaging machines signed by **minipack®-torre**.

In fact, some models of the series give the possibility to print the labels for each machining, on which they are given the most important information of the packaging operation.

In these **chamber vacuum packaging machines**, another innovative and feature-rich element is the control panel, a true flagship that encompasses some pioneering technologies in the food packaging sector. Thanks to its high degree of interactivity and the simplicity of navigation between functions, the Panel allows a quick setting of operations, helping the operator to schedule even the technical
